

## News Story – International Ice Cream Week

This week, the children focused on International Ice Cream Week. We encouraged children to explore the colours and flavours. They had a chance to create their own favourite ice cream in our ice cream shop. We prepared ice cream playdough and shaving foam activities as well as pretend play for the outdoor area.

The children enjoyed using the scoopers to scoop and choose their favourite flavours for their ice creams.

We had ice cream flavour day in our home corner which we turned into an ice cream parlour; the children enjoyed pretending to make ice creams.
