

News Story - Autumn, World Rose Day, World Rhino Day, World Gorilla Day

This week we introduced 'Autumn'. Some of our toddlers and Preschool children enjoyed a short nature walk. Children enjoyed talking about what they saw and found.

"I got a red leaf"

"It's on the floor!"

"I got a stick"

"Acorn!"

Back at nursery the toddlers explored the Autumn tuff tray. New words were introduced "sticky", "tickly" and "soft".

For Rose Day, the children made their own roses. Toddlers enjoyed using their senses in exploring real roses and then went on to draw their own rose... "This is flower, for mummy".

Preschool children created their own version of a rose using coloured paper, straws, pom poms, glue, scissors, and an actual rose to view. Children enjoyed being creative and developing their fine motor skills. "It's a flower", "I like flowers", "It's for my mummy" "It's red!".

For World Rhino and World Gorilla Day, children enjoyed being creative and making their own Gorilla masks and Rhino pictures. All children enjoyed looking and talking about each animal whereas Preschool children were also encouraged to develop their physical skills using a pair of scissors!
