

## News Story - World Space Week, World Vegetarian Day, World Smile Day

This week we had stay and play at nursery. Our theme was 'Space.' Many exciting activities were set up for our parents and children to explore. Parents had the opportunity to speak to their child's key person and spend some quality time with their child designing a rocket and learning all about space, different shapes and colours. The sessions were a big hit!

On Tuesday children talked about 'World Vegetarian Day.' Preschool children discussed how some people live on a vegetarian diet.

"I like vegetables"  
"That's a cucumber"

Toddlers looked at some real vegetables and did some vegetable printing whilst learning new colours.

On Friday we discussed 'World Smile Day'. During registration we discussed how smiling is a sunnah.

Toddlers looked at emoji's and discussed different emotions they might feel, and how being kind to our friends makes them feel happy.

Preschool children sat with their friends and made some smiley faces.
