

News Story - World Snow Day

This week children have been looking at 'World Snow Day'.

Children have enjoyed recalling their own experiences in the snow from early on in the month and playing with snow whilst in nursery.

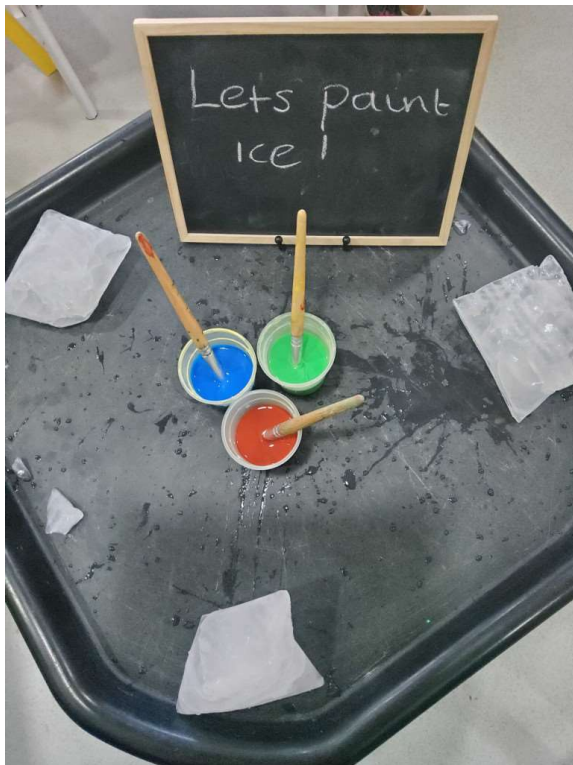

"The snow is so cold"

"I was falling on the ice!"

"I don't like ice"

At nursery children enjoyed making their own blocks of ice, when frozen they enjoyed painting them and then watching what happens to them throughout the day. "Apa, it's turned to water now!". We also talked about Winter clothing and what to wear outside in order to keep warm.

Toddlers have also enjoyed exploring the water tray that was filled with snow.

Children developed their pincer / fine motor skills by tracing over the snowflakes with Apa's guidance.
