

News Story – World Book Day

Today, we celebrated World Book Day at the nursery. The Pre School children arrived dressed as their favourite characters, filled with excitement to showcase their costumes to their friends and teachers.

They also brought along their story books from home to share with one another. During group time, we explored various children's books, and the children thoroughly enjoyed discussing their favourite stories.

We selected 'The Very Hungry Caterpillar' as the most popular book among them and organised a variety of engaging activities centred around it. Overall, the children had a wonderful day.

The younger children recently showed a keen interest in the Gruffalo hide and seek book, so we organized a sensory Gruffalo game that the infants thoroughly enjoyed, both indoors and outdoors.

For the Gruffalo crumble, we utilized oats and Weetabix, lentils represented the roasted fox, and shaving foam was used for the ice cream owl.

The children were delighted in exploring and mixing the various textures with their hands and spoons. Additionally, we read the book and incorporated story spoons, allowing the children to role-play as the animals and mimic their sounds.

The children also expressed curiosity about the book *Dear Zoo*, prompting us to create a tuff tray filled with zoo animals and Weetabix. The infants had a great time playing with the Weetabix and animals, identifying their names, and imitating the sounds of the different animals.
