

News Story – Graduation 2025

Pre-School

Today we had our graduation party for the children who will be leaving us this month for school. We had different activities set up which included making graduation hats on our activity table. A staff member sat down with the children and chose their choice of colour card to make their graduation hats and decorated the hats using different craft resources like sequences, glitter, and tissue paper. The children really enjoyed this activity as they got a chance to be creative and decorate their own graduation hats.

Another activity that we set out was asking children about their feelings going to their new schools. One of the children said “Apa I'm really excited to go to my big school”. We also read the children a story book about the first day of school and talked about different things children will do when they go to school. Children enjoyed taking part in these activities, we all sat down to have some party food which included crisps, biscuits, toast and fruit.

After food, we played party games, then sat down on the carpet and a staff member called out the school leavers to present them their graduation certificates.
