

News Story – Stay and Play

Pre-School

Today in preschool we had our stay and play. All parents were welcomed, we had stimulating activities set out for parents and children both indoor and outdoor.

We had dinosaurs, buckets, and spades in the sand tray. Children enjoyed filling and emptying the sand buckets, they loved hiding the dinosaurs in the sand and finding them with their parents, some children enjoyed making dinosaur footprints and parents were happy to know the dinosaurs names that their children had taught them.

We had phonics activities on the mark making table. Children were provided with a white board, white board pens and the phonics phonemes. They enjoyed recognising the

letters and writing them on their board with their parents.

Children enjoyed making crafts using different materials, they decided to make their own stick houses with the lollipop sticks and match sticks.

It was lovely to have parents come in, as it gave them an opportunity to ask questions about their child's learning. Parents and children have enjoyed their time learning and exploring together. A massive thank you, to parents for coming and being a part of their children's play.
