

News Story – Sports Day

Today we celebrated Sports Day and had a fantastic time taking part in a variety of exciting activities across the nursery.

The children showed great enthusiasm as they completed the obstacle course, developing their balance, coordination, and confidence. They carefully took part in the egg and spoon race, demonstrating excellent concentration and perseverance. At the mark-making table, the children enjoyed creating paper balls, strengthening their fine motor skills while having fun.

There was lots of laughter and excitement during the jumping bag races as the children cheered each other on. It was wonderful to see everyone participating, trying their best, and enjoying an active day of learning through play.

The toddlers enjoyed exploring a range of sports-themed activities throughout the day. In the messy play area, they took part in a boat race, competing with their friends to see whose boat could reach the end of the water tray first. Using stickle bricks, the children created their own weights, with many pretending to exercise

and showing great imagination during their play. Outdoors, the toddlers

had lots of fun completing an obstacle course, taking turns, developing their physical skills, and building confidence as they navigated each challenge.

Sports Day was a wonderful opportunity for all the children to be active, work together, and celebrate the joy of movement and healthy lifestyles.
